## H2S Alive® - Description

This one-day course is intended for all workers in the petroleum industry who could be exposed to hydrogen sulphide (H<sub>2</sub>S). The course covers the physical properties and health hazards of H<sub>2</sub>S, how to protect oneself and basic rescue techniques. Each student is required to operate self-contained breathing apparatus, a detector tube device, and perform rescue breathing and rescue lift and drag exercises.

An industry standard certificate valid for three years is issued upon successful completion of a written examination and demonstration of the required skills.
